PROFESSIONAL SUMMARY

Biomedical Sciences graduate with experience across laboratory research, healthcare data management, and academic instruction. Built operational data skills through HIPAA-compliant credentialing work and actively developing technical skills in SQL. In the final year of my degree, simultaneously conducted neuroanatomical research and held multiple teaching roles across neurobiology and microbiology. Translated complex information across different audiences and contexts. Drawn to healthcare and research because the careful, unglamorous work is what the larger advances are built on.

EDUCATION

B.S. Biomedical Sciences — Neuroscience Track · *University of Central Florida* Jan 2021 – May 2025

- GPA: 3.62 | Dean's List (6 semesters) | Bright Futures Scholar
- AI for Work and Life — Continuing Education Certificate, University of North Florida (2025)

PROFESSIONAL EXPERIENCE

Teaching & Academic Support — Multiple Roles · *University of Central Florida* Jan 2024 – May 2025

Orlando, FL · Hybrid

- Led 5 weekly microbiology study sessions (1–12 students/session) across hybrid format; students averaged 1.5 letter grade improvements. Recognized as Star of the Month based on a formal rating system, certificate, and team recognition.
- Maintained and updated course website; developed worksheets, quizzes, and flashcards used in sessions. Followed strict communication protocols throughout.
- Supported a 200+ student neurobiology course across three semesters; held Zoom office hours, attended lectures to field questions, proctored both in-person and online exams, and met strict grading and deadline protocols.
- Co-delivered weekly neuroanatomy lectures to ~40 students; co-designed and facilitated a D&D-inspired simulation with faculty to improve critical thinking and engagement.
- Supervised immunology lab sections serving ~80 students/week; enforced safety protocols, PPE compliance, and proper equipment use. Administered verbal quizzes to support retention.

Credentialing Specialist · *Aria Care Partners* — *Remote*

Mar 2023 – Dec 2023

- Managed HIPAA-compliant records for 400+ providers across multiple specialties and states using CAQH, MODIO, Excel, and cloud data platforms; maintained document accuracy across all systems.
- Designed a provider intake form consolidating required documents into a single submission point; resolved a bottleneck in the onboarding process that had been slowing credentialing timelines for facilities and payers downstream.
- Attended software rollout training independently and applied it to support teammates through adoption, working through each person's specific workflows rather than a one-size-fits-all approach.

Front Desk Representative · *Marriott Hotels*

Oct 2021 – May 2022

Orlando, FL

- Sole front desk operator across multiple shifts; managed 15–50 guest check-ins daily and resolved ~50 requests/issues per week spanning HVAC, AV systems, locks, food prep, cashiering, and online platforms.

RESEARCH & PROJECTS

Experimental Molecular Cell Biology

Jan 2025 – May 2025

- Developed independent hypotheses and protocols prior to AI consultation; compared reasoning against AI-generated predictions and evaluated both against primary literature and live experimental results.
- Performed mammalian tissue culture, immunostaining, and microscopy to investigate compound effects on cell viability and cytoskeletal integrity; applied SDS-PAGE and protein visualization.

Histology — Neuroanatomical Research

Jan 2024 – May 2024

- Conducted neuroanatomical research using rat brain tissue; performed tissue slicing, plating, and staining; visualized samples via brightfield and fluorescent microscopy.
- Designed and executed independent cell density quantification across brain regions from raw tissue data.

Student & Faculty Needs Study — Capstone Research

Aug 2019 – May 2020

- Designed and conducted a year-long independent mixed-methods study at a suburban high school; surveyed 110 students and 28 faculty on mental health and well-being; scored 4/5 by College Board reviewers.
- Designed and implemented a range of low-cost interventions across multiple student need areas identified in the research, including a transfer student integration program and monthly educational sessions; founded and led a student club to fund and staff the initiatives.

VOLUNTEER EXPERIENCE

Coordinator of Volunteers — Neuroscience Outreach · *University of Central Florida* Aug 2022 – May 2024

- Led 12 volunteers in delivering an interactive educational play on brain function to 120+ K–6 students and families.

Club Coordinator — Japanese Culture Club · *University of Central Florida*

Jan 2023 – May 2025

- Developed and led recurring meeting sessions combining short lectures with rotating interactive activities including language roleplays, games, and cultural simulations.

Club President — Mental Health Awareness Club · *Fleming Island High School* Aug 2018 – May 2020

- Founded and led a student mental health awareness club; organized weekly educational sessions on social issues affecting teenagers.
- Coordinated volunteer initiatives including hurricane relief drives, campus beautification projects, and a transfer student integration program.

Animal Care Volunteer · *Clay County Animal Shelter*

Jan 2019 – Jun 2019

- Provided daily care for up to 35 cats across 18 enclosures; monitored health, maintained cleanliness, and socialized animals to reduce stress; guided prospective adopters on proper pet care and handling.

SKILLS & COMPETENCIES

Laboratory: Tissue culture, immunostaining, fluorescent & brightfield microscopy, SDS-PAGE, histology, PCR

Technical: CAQH, MODIO, Microsoft Excel, cloud data platforms, Python (beginner), SQL (beginner), Adobe Creative Suite (Photoshop, Illustrator), Video editing: cuts, transitions, and multi-track audio synchronization, 3D printing, AI-assisted research workflows, prompt engineering, AI productivity tools

Communication: Lecture delivery, curriculum design, scientific writing, public outreach, advocacy

Data & Research: Survey design, quantitative analysis, data visualization, HIPAA-compliant record management

Leadership: Team coordination, volunteer management, program development

Languages: English (native); Japanese (conversational); Spanish (beginner)
